

GETTING STARTED WITH COMMUNITIES

Guide Retired

The Getting Started with Communities guide is retired. Fear not, none of this content is gone. We've got even better content on the Salesforce Help & Training portal that covers material from this guide and more.

See more details about this change [here](#). For starters, check out the Set Up and Manage Communities guide ([HTML](#) | [PDF](#)) on the Help & Training portal. Don't forget to update your bookmarks!

Note: This release is in preview. Features described in this document don't become generally available until the latest general availability date that Salesforce announces for this release. Before then, and where features are noted as beta, pilot, or developer preview, we can't guarantee general availability within any particular time frame or at all. Make your purchase decisions only on the basis of generally available products and features.
